OBJECTIVE

Seeking to leverage my proficiency in Laravel PHP and ongoing pursuit of Python, data structures, and MySQL expertise to contribute effectively to a dynamic team. Eager to apply my skills in software development and database management to create efficient and scalable solutions in a challenging environment.

EDUCATION

2022-2026

BE-CSE, PANIMALAR ENGINEERING COLLEGE

APRIL 2022

HSC, SRI BHARATHIDASAN MATRIC AND HIGHER SEC SCHOOL

APRIL 2020

SSLC, ASHOKA SISHU VIHAR MATRICULATION SCHOOL

PROJECT

Institute Management System (IMS) Overview: IMS is a robust software solution optimizing efficiency and transparency in educational institutions. It automates attendance tracking, fee management, and timetable scheduling, significantly reducing administrative burdens and enhancing productivity. IMS supports online record access and assignment submissions for students, and efficient mark entry and timetable creation for staff. It ensures real-time data access, promotes accountability through activity logging, and facilitates seamless communication among students, staff, HODs, supervisors, and parents via centralized platforms.
